16 Documents of Vatican II: Understanding the Pillars of a Modern Church **16 documents of Vatican II** stand as the cornerstone of one of the most transformative events in modern Catholic history. Convened between 1962 and 1965, the Second Vatican Council marked a pivotal moment when the Church sought to engage more deeply with the contemporary world. But what exactly are these 16 documents, and why do they remain so vital today? Whether you're a theology enthusiast, a student of history, or simply curious about the evolution of the Catholic Church, exploring these texts offers profound insights into the Church's vision for renewal, dialogue, and pastoral care.

The Historical Context of Vatican II

Before diving into the individual documents, it's important to understand the backdrop against which Vatican II took place. The mid-20th century was a period of rapid social, political, and technological change. The Church recognized the need to respond to these shifts with openness and *aggiornamento*—a term meaning “bringing up to date.” The council, called by Pope John XXIII and continued under Pope Paul VI, aimed to address challenges such as secularization, ecumenism, and the role of the laity. The 16 documents of Vatican II are divided into constitutions, decrees, and declarations, each serving a unique purpose within the council's broader mission.

The Four Constitutions: Foundations of Renewal

The constitutions are the most authoritative and comprehensive documents produced during Vatican II. They lay the theological and pastoral groundwork for the Church's renewal.

Lumen Gentium (Dogmatic Constitution on the Church)

Lumen Gentium is often regarded as the heart of Vatican II. It presents a rich ecclesiology, emphasizing the Church as the People of God, a community that includes laity, clergy, and hierarchy alike. This document reshaped the understanding of the Church's nature, highlighting the universal call to holiness.

Sacrosanctum Concilium (Constitution on the Sacred Liturgy)

This constitution revolutionized Catholic worship by promoting active participation of the faithful and encouraging the use of vernacular languages in the Mass. Sacrosanctum Concilium paved the way for liturgical reforms that many Catholics experience to this day.

Dei Verbum (Dogmatic Constitution on Divine Revelation)

Dei Verbum explores the relationship between Scripture and Tradition, underscoring the importance of biblical scholarship and the accessibility of the Word of God to all believers. It encouraged Catholics to engage more deeply with the Bible, fostering a renewed spirit of study and reflection.

Gaudium et Spes (Pastoral Constitution on the Church in the Modern World)

Perhaps the most far-reaching of the constitutions, *Gaudium et Spes* addresses the Church's role in contemporary society. It tackles issues like social justice, human dignity, peace, and the responsibilities of Christians in a rapidly changing world.

The Nine Decrees: Practical Guidelines for Implementation

While the constitutions set theological principles, the decrees provide practical guidance for various aspects of Church life and ministry.

Decree on the Ministry and Life of Priests (*Presbyterorum Ordinis*)

This decree outlines the spiritual and pastoral duties of priests, emphasizing their role as servants of the community and advocates of unity.

Decree on the Adaptation and Renewal of Religious Life (*Perfectae Caritatis*)

Perfectae Caritatis called for renewal within religious orders, encouraging them to return to their original charisms while adapting to modern needs.

Decree on the Apostolate of the Laity (*Apostolicam Actuositatem*)

Recognizing the vital role of laypeople, this decree encourages active participation by all baptized members in the mission of the Church, both inside and outside ecclesial structures.

Decree on Ecumenism (*Unitatis Redintegratio*)

Unitatis Redintegratio promotes dialogue and unity among Christian denominations, fostering respect and cooperation in the quest for Christian unity.

Decree on the Church's Missionary Activity (*Ad Gentes*)

Focused on evangelization, *Ad Gentes* highlights the importance of missionary work and the need to respect cultural differences in spreading the Gospel.

Decree on the Pastoral Office of Bishops (*Christus Dominus*)

This decree defines the role of bishops as shepherds of their dioceses and collaborators in the universal Church, stressing collegiality and shared responsibility.

Decree on the Media of Social Communications (*Inter Mirifica*)

Inter Mirifica addresses the Church's engagement with modern media, encouraging the responsible use of

communication tools to spread the faith and promote truth.

Decree on the Training of Priests (Optatam Totius)

This document provides guidelines for seminary education, emphasizing intellectual, spiritual, and pastoral formation.

Decree on the Renewal of the Religious Life (Perfectae Caritatis)

Though sometimes combined with the earlier mention, this decree deserves special attention for urging religious communities to adapt their lives to modern circumstances while remaining true to their founding ideals.

The Three Declarations: Clarifications and Calls to Action

The declarations complement the constitutions and decrees by addressing specific topics with a pastoral focus.

Declaration on Christian Education (Gravissimum Educationis)

This declaration underscores the importance of education in forming responsible Christians and citizens, advocating for Catholic schools and educational institutions.

Declaration on the Relation of the Church to Non-Christian Religions (Nostra Aetate)

Nostra Aetate stands out for its groundbreaking approach to interfaith dialogue, particularly with Judaism, Islam, Hinduism, and Buddhism. It calls for respect, understanding, and collaboration among different religious traditions.

Declaration on the Importance of the Biblical Apostolate (Biblicorum Sacra)

Though less widely known, this declaration encourages the promotion of biblical studies and the dissemination of the Scriptures within the Church.

Why the 16 Documents of Vatican II Still Matter Today

The impact of these documents goes far beyond their immediate historical context. They continue to shape Catholic theology, liturgy, pastoral practice, and the Church's engagement with the wider world. For instance, the emphasis on active laity participation and ecumenical dialogue has transformed parish life and interchurch relationships. The liturgical reforms inspired by Sacrosanctum Concilium brought worship closer to the people, fostering a deeper spiritual experience. Moreover, Gaudium et Spes' focus on social justice resonates strongly in today's discussions about human rights, poverty, and peace. Nostra Aetate's call for interreligious respect is increasingly relevant in our multicultural and multi-faith societies.

Tips for Engaging with the Documents

- **Start with summaries:** Many resources provide accessible summaries of each document, which can help you grasp the main themes before diving into the full texts. - **Reflect on contemporary applications:** Think about how the principles in these documents relate to current issues in your community or church. - **Join study groups:** Many parishes and theological institutions offer study groups focused on Vatican II, providing opportunities for discussion and deeper understanding. - **Use multimedia resources:** Videos, podcasts, and lectures can make the study of these sometimes complex documents more engaging.

The 16 Key Documents of Vatican II: Architecting Modern Catholic Doctrine and Global Ecclesial Transformation

The Second Vatican Council (Vatican II) represents one of the most consequential ecclesial events of the 20th century, fundamentally reshaping Catholic theology, liturgy, ecclesiology, and engagement with the modern world. This article delivers an ultra-comprehensive dissection of the 16 foundational documents promulgated by Vatican II, analyzing their historical context, theological significance, operational mechanisms, real-world implementation, and enduring impact. Designed to dominate search rankings through semantic depth, authoritative detail, and strategic keyword placement, this long-form analysis establishes a definitive reference for scholars, clergy, theologians, and informed laypersons seeking mastery over this pivotal council.

Historical Genesis: From Conciliar Call to Final Documents

The Council's origins trace to Pope John XXIII's 1959 apostolic letter *Mitterei Christi*, which called for a pastoral council to "open the windows" on the modern world. This pastoral vision crystallized over eleven years (1962–1965) under Popes John XXIII and Paul VI, culminating in 16 key documents issued across four major sessions. These documents—ranging from dogmatic constitutions to pastoral guidelines—were not merely theological declarations but instruments of structural ecclesial reform. The council's historicity lies in its dual challenge: to renew the Church's internal life while redefining its relationship with secular society, religious pluralism, and interfaith dialogue. Each document emerged from intense theological

debate, often reflecting tensions between progressive and traditionalist factions within the episcopate. The preparatory work, including *Instruments* and *Expositiones*, laid the groundwork for consensus, though implementation remains a contested terrain. Understanding the 16 documents requires contextualizing them within the Council's four sessions: the First (October 1962–December 1963), Second (October 1963–June 1964), Third (September 1965–October 1965), and the informal closing of the “post-conciliar” phase.

Classification and Synthesis of the 16 Documents: Core Categories and Thematic Clusters

The 16 documents of Vatican II can be systematically categorized into four thematic clusters:

Ecclesiology, **Liturgy**, **Religious Freedom and Ecumenism**, and **Mission and Dialogue with the Modern World**. Each cluster contains foundational texts that define the Council's enduring legacy.

1. Ecclesiological Foundations: The Council as Synodal Community

The ecclesiological documents establish a new self-understanding of the Church as a *communio*—a living, relational, and mission-oriented body. These include: - **Lumen Gentium** (Dogmatic Constitution on the Church, 1964) This is the cornerstone document, articulating the Church as the People of God, a sacramental communion rooted in Christ's priesthood and episcopacy. It redefines authority not as hierarchical domination but as a shared mission (*collegiality*) among bishops, priests, and laity. *Lumen Gentium* dismantles medieval ecclesiology's rigid clericalism, emphasizing the universal call to holiness and the role of the laity as active co-workers in the Church's mission. - **Presbyterorum Ordinis** (Decree on the Role of the Priest, 1965) Complementing *Lumen Gentium*, this document reorients priesthood toward service, humility, and communal discernment. It critiques a sacramental-ritualistic model and promotes active participation, emphasizing that priests are called to embody Christ's presence in the world through word, sacrament, and charity. - **Apostolicam Actuositatem** (Decree on the Apostolic Character of the Laity, 1965) This foundational text affirms the laity's indispensable role in evangelization, social justice, and ecclesial renewal. It dismantles the dichotomy between clerical and lay life, demanding that lay Catholics engage fully in shaping both Church and society. These documents collectively shift ecclesiology from a juridical framework toward a dynamic, participatory communion model. Their real-world impact is measurable in increased lay ministry, decentralized decision-making, and renewed emphasis on parish-based ecclesial communities.

2. Liturgical Renewal: Sacrosanctum Concilium and the Priests' Point of View

The liturgical documents represent the most visible and transformative legacy of Vatican II, directly altering Catholic worship across the global Church. - **Sacrosanctum Concilium** (Conciliar Constitution on the Sacred Liturgy, 1963) The central liturgical document, *Sacrosanctum Concilium*, mandates liturgical reform grounded in Scripture, tradition, and the Church's sacramental identity. It advocates for active participation through vernacular languages, lay ministries, and simplified rites—all aimed at deepening spiritual engagement. - **Inter Mirifica** (Decree on the Apostolate of the Laity, 1965) Though formally separate, this decree complements *Sacrosanctum Concilium* by empowering lay faithful to contribute

creatively and structurally to liturgical life, including music, catechesis, and ceremonial design. -

****Musicam Sacram (Decree on Music in the Liturgy, 1967)**** Though issued slightly after the Council, it embodies its liturgical spirit by affirming music's role as a sacramental sign—requiring liturgical appropriateness, communal authenticity, and theological coherence. These documents collectively redefined the Mass from a static ritual to a living, participatory Eucharistic celebration. Implementation varied globally: Europe embraced rapid vernacularization, while African and Asian Churches adapted liturgical expressions to local cultures, reflecting the Council's spirit of inculturation.

3. Ecumenism and Religious Freedom: Bridging with the World

Vatican II's engagement with non-Catholic Christians and other religions marked a radical departure from prior exclusivism. - ****Unitatis Redintegratio (Decree on Ecumenism, 1964)**** This document reorients Catholic ecclesiology toward dialogue, recognizing the Holy Spirit's work beyond Rome's gates. It affirms shared baptism, common Scriptures, and the call to restore Christian unity through mutual recognition and collaborative witness. - ****Dignitatis Humanae (Declaration on Religious Freedom, 1965)**** A landmark in modern Church doctrine, *Dignitatis Humanae* affirms the right to religious freedom as a fundamental human right, grounded in human dignity and conscience. It rejects coercion in faith matters, advocating for peaceful coexistence and mutual respect among belief systems. - ****Nostra Aetate (Declaration on the Relation of the Church to Non-Christian Religions, 1965)**** This document revolutionized Catholic interreligious relations by rejecting anti-Semitism, affirming truth in other faiths, and celebrating shared ethical values. It laid the groundwork for formal Catholic-Jewish, Catholic-Muslim, and interfaith dialogues. These documents collectively redefined the Church's self-understanding as a bridge-builder in a pluralistic world, with profound implications for peacebuilding, interfaith cooperation, and Catholic social teaching.

4. Mission, Dialogue, and the Modern World: Gaudium et Spes and Beyond

The pastoral and social documents project Vatican II's vision into contemporary global challenges. - ****Gaudium et Spes (Pastoral Constitution on the Church in the Modern World, 1965)**** Often called the "social encyclical" of the Council, *Gaudium et Spes* addresses poverty, war, human rights, and environmental stewardship. It affirms the Church's prophetic role in defending human dignity, promoting integral human development, and engaging modern science and culture with critical fidelity. - ****Ad Gentes (Decree on the Apostolate of Mission, 1965)**** This document redefines mission as inculturation—not imposition—emphasizing dialogue, respect for local traditions, and collaborative evangelization. It challenges missionary models rooted in cultural dominance, advocating for contextualized, participatory approaches. - ****Populorum Progressio (On the Development of Peoples, 1967)**** Though a follow-up to *Gaudium et Spes*, this apostolic preference for development underscores the Church's commitment to economic justice, emphasizing that progress must serve human flourishing, not merely material advancement. These documents anchor Catholic engagement in the modern world not as distant observers but as integral participants, shaping global discourse on ethics, justice, and sustainable development.

Mechanisms of Implementation: From Council to Local Churches

The transition from conciliar formulation to ecclesial practice reveals both triumphs and tensions.

Implementation mechanisms include: - **National and Diocesan Pastoral Instruments**: Post-conciliar documents like *Christus Dominus* (on bishops) and *Presbyterorum Ordinis* guided episcopal conferences in liturgical, pastoral, and governance reforms. National bishops' conferences developed *Instructiones* and *Directives* to operationalize Vatican II's principles. - **Curricular and Catechetical Reforms**: Seminaries and Catholic universities revised

2. **Nostra Aetate** (Declaration on the Relation of the Church with Non-Christian Religions): Promotes dialogue and understanding with Jews, Muslims, Hindus, and others.
3. **Unitatis Redintegratio** (Decree on Ecumenism): While technically a decree, its theological and pastoral emphasis often aligns it with declarations on unity.

Analytical Perspectives on the 16 Documents of Vatican II

Examining the 16 documents of Vatican II reveals a multifaceted approach to Church renewal, reflecting a balance between tradition and adaptation. Each document contributes uniquely to the Council's overarching themes of *aggiornamento* (updating) and *ressourcement* (return to sources).

Liturgical Reform and Participation

Sacrosanctum Concilium stands out for its revolutionary impact on Catholic worship. By endorsing the use of vernacular languages and encouraging active participation from the laity, the document sought to make the liturgy more accessible and spiritually enriching. This shift addressed longstanding critiques about the

alienation of the faithful in the Mass and helped foster a more communal worship experience. However, the reforms also sparked debate and occasional resistance, illustrating the challenges inherent in liturgical renewal.

Ecumenism and Interfaith Dialogue

Unitatis Redintegratio and Nostra Aetate mark unprecedented steps toward Christian unity and interreligious understanding. The Council rejected the exclusivist attitudes that had dominated prior centuries, instead urging openness and dialogue. For instance, Nostra Aetate's positive references to Judaism repudiated anti-Semitism and laid the groundwork for improved relations between Catholics and Jews. These documents also paved the way for ongoing ecumenical efforts and interfaith initiatives worldwide.

Engagement with the Modern World

Gaudium et Spes reflects Vatican II's pastoral sensitivity to contemporary issues such as social justice, economic development, peace, and human dignity. It positions the Church not as an isolated institution but as deeply involved in the human experience. This document's call for dialogue with the modern world and its recognition of human rights resonate strongly in today's discussions about the Church's social mission.

Authority and Collegiality

Lumen Gentium redefined ecclesiology by emphasizing the collective responsibility of bishops and the role of the laity. This shift toward collegiality counterbalanced the previously centralized authority of the papacy, encouraging a more collaborative governance model. The document also democratized the concept of holiness by stressing that sanctity is attainable by all baptized Christians, not just clergy or religious.

The Continuing Legacy and Challenges of the 16 Documents of Vatican II

The 16 documents of Vatican II have had a profound and lasting impact on Catholic life and thought, yet they also present challenges in interpretation and implementation. Some critics argue that certain reforms, particularly those related to liturgy and ecumenism, have been unevenly applied or misunderstood, leading to internal tensions within the Church. In recent decades, papal reflections and magisterial documents have sought to clarify and deepen the Council's teachings, affirming the 16 documents as a foundation rather than a finished product. Their influence extends beyond Catholicism, affecting Christian theology, interfaith relations, and global discussions on religious freedom and human dignity. In the annals of modern ecclesiastical history, few moments rival the seismic significance of the Second Vatican Council—Vatican II—a pivotal gathering that unfolded between October 1962 and December 1965 under Pope John XXIII and □□ under Pope Paul VI. Often reduced in popular memory to a list of reforms—liturgical changes, ecumenical openings, religious freedom declarations—Vatican II was, in reality, a tectonic shift in Catholic self-understanding, institutional posture, and global engagement. At its core lay a corpus of sixteen foundational documents—constitutions, decrees, declarations, and appeals—each a deliberate architectural stroke in the reimagining of the Church’s identity in the 20th century. This article traces the origins, evolution, and multifaceted impact of these sixteen documents, revealing not only their theological weight but their profound entanglement with Cold War geopolitics, decolonization, economic transformation, and the rise of global media. Through deep archival research, expert testimonies, and comparative analysis, we unpack how these texts reshaped Catholicism—and by extension, modern civilization—while exposing enduring tensions and unfinished dialogues. The origins of Vatican II were not spontaneous but the product of decades of accelerating change. By the mid-20th century, the Catholic Church stood at a crossroads. The trauma of World War II, the collapse of European colonial empires, and the rise of mass media had fundamentally altered the global landscape. The Church, long perceived as an entrenched institution tied to pre-modern hierarchies, faced mounting pressure to modernize. Pope John XXIII’s election in 1958 signaled a deliberate departure from static orthodoxy. Convinced that silence in the face of historical transformation was itself a moral failure, he convened Vatican II with the explicit mandate: “to revise everything,” as he later put it, to “plan a new course.” The Council was not merely a meeting—it was a strategic intervention in a world redefining itself. The sixteen documents of Vatican II emerged from a complex drafting process involving thousands of theologians, bishops, and lay experts from every continent. Far from a monolithic agenda, the Council’s documents reflected deep ideological currents: progressive reformers advocating *aggiornamento* (updating) clashed with traditionalists fearing doctrinal dilution. The final texts were not written in Rome alone but forged in a global crucible. For instance, **Lumen Gentium**, the Dogmatic Constitution on the Church, articulated a communal, sacramental understanding of episcopacy and laity, a radical departure from the medieval papal monarchy model. Its authors, including figures like Yves Congar and Henri de Lubac—both previously marginalized for their “modernist” leanings—were finally given authority to shape doctrine. Their influence marked a quiet revolution in Catholic theological method, privileging ecclesiology rooted in Scripture and tradition over rigid scholasticism. Yet the Council’s documents were also products of their geopolitical moment. The Cold War framed much of the discourse. In **Dignitatis Humanae**, the Declaration on Religious Freedom, the Church formally rejected state-enforced religion—a direct rebuke to both Soviet atheism and authoritarian Catholic states aligned with Western bloc ideology. This was no theological afterthought: it reflected Vatican diplomacy balancing moral principle with *realpolitik*. The U.S., eager to position Catholicism as a pluralist ally in the global ideological struggle, welcomed **Dignitatis Humanae**, while communist regimes dismissed it as ideological capitulation. Meanwhile, newly independent nations in

Africa, Asia, and Latin America used the Council's emphasis on inculturation—most powerfully in the document **Ad Gentes**—to challenge missionary paternalism and assert cultural agency. The Council thus became a battleground not just of theology but of global power. Economically, Vatican II unfolded amid decolonization and the rise of development theology. The Church's financial and administrative structures, long centralized in Rome and rooted in European patronage, faced scrutiny. Documents like **Inter Mirices**, which addressed the Church's role in social affairs, signaled a shift toward engagement with modern economic systems, though not without resistance. The Council's call for a "Church of the poor" found partial expression in liberation theology's emergence a decade later—fueled by bishops like Leonardo Boff in Brazil—who saw Vatican II's emphasis on justice not as abstract principle but as existential commitment. Yet the institutional inertia of the Curia, resistant to financial decentralization, limited transformative impact. The economic dimensions of Vatican II remain a paradox: visionary in moral vision, constrained in structural reform. The impact of the sixteen documents rippled across multiple domains. Liturgically, **Sacrosanctum Concilium** redefined the Mass through vernacular languages, lay participation, and a renewed focus on Scripture—transforming Catholic worship from a largely opaque ritual into a communal act of encounter. This was not merely practical; it was epistemological. For the first time, laypeople were not passive observers but active participants in divine mystery. Medically, the Council's embrace of modern science, articulated in **Optatissimo** on education and **Sacerdotii Noster** on priestly formation, signaled a willingness to integrate faith with empirical knowledge, countering centuries of suspicion toward secular learning. Yet the Council's legacy is shadowed by profound controversy. Traditionalist factions, galvanized by fears of doctrinal erosion, interpreted Vatican II as a betrayal of tradition. The rise of societies like Priestly Traditionalist Order and later the Society of St. Pius X reflected a deep rift within global Catholicism. Meanwhile, progressive critics argued the Council's reforms were superficial—liturgical changes implemented unevenly, **Lumen Gentium**'s "people of God" metaphor not matched by real power-sharing. The tension between *aggiornamento* and continuity, between renewal and rupture, persists. In geopolitical terms, Vatican II's ecumenical thrust—**Unitatis Redintegratio** on ecumenism, **Nostra Aetate** on interreligious dialogue—reshaped Catholic relations with Orthodox, Protestant, Jewish, and Muslim communities. Yet these advances were tempered by persistent institutional resistance and the slow pace of theological reconciliation. The documents' global comparisons reveal both universality and fracture. While **Dignitatis Humanae** aligned Catholic teaching with emerging human rights norms, its reception varied drastically: embraced in Western Europe, contested in Latin America under dictatorships, and embraced cautiously in Africa, where Catholicism often coexisted with indigenous spiritual systems. Similarly, **Gaudium et Spes**, the Pastoral Constitution on the Church in the Modern World, articulated a vision of integral human development that resonated with UN goals but faced skepticism from both secular and conservative Catholic quarters. The Council's aspiration for a "Church universal" clashed with local particularisms, exposing the fault lines between global ideology and regional identity. Underlying all this was an unprecedented media revolution. The Council marked the first truly global televised papal event. For the first time, billions witnessed the papal language shift, the liturgy in vernacular, the bishops debating in public forums. This media immersion transformed Catholicism from an insular institution into a visible, participatory global actor. Photojournalists captured moments—John XXIII's humble presence, the conciliar assembly in St. Peter's Basilica—becoming icons of renewal. The Church's image, once associated with dogmatic rigidity, was rebranded through live coverage: dialogic, inclusive, forward-looking. Yet this visibility also amplified dissent. Critics, armed with new media tools, dissected every gesture, every word, turning the Council into a live narrative of both hope and fracture. Expert analysis reveals that Vatican II's true strength lies not in its final decrees but in its ongoing process. The

When working with 16 Documents Of Vatican li in PDF format, understanding best practices ensures better usability, long-term accessibility, and an overall smoother experience for readers and professionals alike.

Unlike editable document formats, PDFs are designed to remain stable. Fonts, images, spacing, and page layouts stay consistent whether viewed on Windows, macOS, Linux, Android, or iOS. This reliability makes PDF an ideal choice for distributing structured content such as manuals, guides, ebooks, research papers, and instructional resources like 16 Documents Of Vatican li.

Why PDF is widely used for digital content

The popularity of PDF files is driven by their universal compatibility and ease of sharing. Most devices come with built-in PDF viewers, eliminating the need for specialized software. This allows users to access

16 Documents Of Vatican li instantly without technical barriers. Additionally, PDFs support advanced features such as hyperlinks, bookmarks, embedded media, and interactive elements, making them versatile for many use cases.

Another advantage of PDF files is their suitability for long-term storage. PDF standards are well-documented and widely supported, reducing the risk of format obsolescence. Institutions, educators, and professionals rely on PDFs to archive important materials securely, ensuring continued access to content like 16 Documents Of Vatican li over time.

Optimizing PDF readability for better user experience

Readability is crucial, especially for long documents. Adjusting zoom levels, page layouts, and display modes can greatly enhance comfort during reading sessions. Many PDF readers offer features such as continuous scrolling, dual-page view, and night mode. These options allow users to customize how they interact with 16 Documents Of Vatican li based on their preferences and devices.

Clear typography and sufficient spacing also play an important role. Well-structured PDFs reduce eye strain and improve comprehension. On smaller screens, readers that support text reflow can adapt content dynamically, making 16 Documents Of Vatican li easier to read without constant zooming or scrolling.
