One of the most effective approaches is breaking chapters into smaller, manageable sections. Large blocks of information can be overwhelming and reduce focus. Dividing content into sections encourages gradual progress and helps learners absorb information step by step. Writing brief notes or outlines based on Brunner And Suddarths Textbook Of Medical Surgical Nursing 15th Edition content enables learners to

process information actively rather than passively consuming it. These summaries can later serve as quick revision materials before exams or discussions.

Regularly reviewing highlighted sections is another essential study practice. Highlights draw attention to important ideas, definitions, or arguments that require reinforcement. Digital highlights remain accessible and searchable, making review sessions more efficient than flipping through physical pages.
