Setting and Geography

House of Earth and Blood unfolds within the city of Lunathion, often called "the City of Sin," a vast metropolitan area divided into various districts, each with its own character and inhabitants. The city is a melting pot of different races—fae, humans, angels, demons, and other mythical beings—living in uneasy coexistence.

Lunathion's architecture mixes modern skyscrapers with ancient ruins, reflective of its layered history. The city's layout is central to the narrative, providing a dense, immersive backdrop that influences character interactions and plot developments.

****House of Earth and Blood: A Genesis of Power, Blood, and Geopolitical Fracture**** The name “House of Earth and Blood” does not emerge from myth alone; it is a cipher for centuries of extractive dominance, territorial contestation, and the visceral interplay between sovereignty and resource control. Rooted in the primordial symbiosis between human civilization and the land it consumes, this phrase encapsulates a lineage of power structures that have shaped empires, economies, and ethnic divides from ancient kingdoms to modern globalized rent-states. To unpack it is to confront not only a literal lineage of dynastic rule but also a metaphor for the enduring conflict between humanity’s need for sustenance and the violent mechanics of accumulation. The origins of the House of Earth and Blood lie not in a single lineage but in a convergence of ancient agrarian civilizations, where the first domestication of soil and blood coalesced into political authority. Across Mesopotamia, the Nile Valley, the Indus Basin, and the Yellow River basin, early states emerged not merely as administrative centers but as ritualized monopolies over fertile land and water—
